Security Support Services: Consulting & Project Management

Security Support Services offers government clients comprehensive management consulting program that supports security analysis, procurement and project management of facilities and special environments. Contracted services may include:

- Generate statements of work for recommended security countermeasures
- Develop and analyze vulnerability & risk assessment reports
- Create independent government cost estimates
- Conduct pre-bid walk through with contractors
- Provide contractor negotiation support - liaison between COTR & Project Managers
- Facilitate audits & provide status reports while maintaining project timelines
- Generate project commissioning documents
- Support project kick off and progress meetings

Service

- Full Service Agreements
- Labor Only Agreements
- Preventative Maintenance Agreements
- Help Desk Support

Corporate Overview

Securityhunter is committed to securing government clients by offering technologically advanced security solutions.

Our security solutions include design, installation and maintenance of the following electronic security systems and applications:

- Risk Assessments

- Access Control: Command & Control

- Intrusion Detection

- Video Surveillance (CCTV)

- Emergency Communication: Intercom-Paging-Fencing & Gates

Our electronic security expertise is coupled with experience within a variety of both simple and complex environments. This experience provides an added value in today's marketplace. We support security managers for rail & port transportation hubs, retail shopping arenas, healthcare facilities, and a variety of facilities associated with U.S. federal, state and local government agencies and the Department of Defense.

Capable of working in a breadth of environments specializing in a depth of electronic security solutions; our team of technical experts are versed with a variety of electronic security systems that may be incorporated in a multitude of environments. We offer some of the more advanced access control and video surveillance products. We offer FIPS 201 compliant access control solutions and advanced megapixel video recording and playback applications.

Post - September 11, 2001, the U.S. federal government has sought out subject-matter experts for support with Department of Homeland Security initiatives related to electronic security counter-measures. As a government contractor, Securityhunter continues to provide security support services and security installation and integration services that support the United States federal, state & local government initiatives.

In 2008, State and Local Government Agencies were offered access to goods and services offered via GSA schedules 84 and 70. This allows purchasing agents at the state and local level access to cooperative purchasing and disaster recovery IT solutions and physical security products and services provided for law enforcement and facility management.

Securityhunter currently supports U.S. Dept of Health and Human Service's Program Support Center

with HSPD-12 compliant security solutions via a GSA blanket purchase agreement (BPA # HSSP23320110001XB) This agreement supports agencies nationwide, providing security expertise that meets today's physical security requirements so you can focus on your mission. To learn more about this contract vehicle contact Donald.hadrick@psc.hhs.gov or (301)443-3459.

In addition to providing a comprehensive understanding of current security industry countermeasure requirements, Securityhunter's success in the industry may be attributed to structuring company resources to meet the security needs of our clients. This requires an infrastructure capable of delivering goods and services within the allocated time schedule, and within the client's budget. Company resources are available 24 hours a day, 7 days a week. All installation & service work is managed with in-house certified security technicians ensuring clients experience optimal technical performance.

Our 20 year experience in the security industry offers our clients the confidence to seek our expertise and enables Securityhunter to compete as a small business in the commercial and government marketplace. What allows us to be more versatile and competitive is our ability to team with partners that have the breadth and depth to assist with larger scale assessments and installations working under sometimes very pressing deadlines. We are fortunate to have a team of companies that offer technical expertise that support federal and DOD mission critical objectives.

Legal Services Associates, WOSB, VOSB, 8(a); At Hoc, SB;

SCIF Electronics, LLC, SDVOB; Data Management Group, WOSB, 8(a), DBE;

ARINC; Northrop Grumman IS; Stanley Convergent Security Solutions; ADT Federal Systems;

Price Waterhouse Coopers, LLC

Government agencies and Fortune 500 companies receive a higher level of safety and security from the targeted security solutions that Securityhunter provides. From a multitude of security systems to highly specialized VIP defense capabilities, Securityhunter has achieved significant growth with a prestigious list of clients spanning numerous industries and levels of government. Regardless of size, every client receives an extremely high level of responsiveness, technical capability and resolution of equipment and system issues.

We strive to provide each client with a personal approach because we believe people build our business. Employees are client focused, and are driven to build long term relationships. We truly believe customer satisfaction is as important as the safety, security and reliability of our systems.

Cooperative Purchasing Program

Section 211 of the E-Government Act of 2002 (the Act) amended the Federal Property and Administrative Services Act to allow for "Cooperative Purchasing." Cooperative Purchasing allows for the Administrator of General Services to provide states and localities access to certain items offered through the General Services Administration's (GSA's) [Federal Supply Schedule 70](#), Information Technology (IT), and [Consolidated \(formerly Corporate Contracts\) Schedule](#) contracts, containing IT Special Item Numbers (SINs). The information technology available to state and local governments includes automated data processing equipment (including firmware), software, supplies, support equipment, and services.

Public Law 110-248, the Local Preparedness Acquisition Act, amended the "Cooperative Purchasing" provisions of the Federal Property and Administrative Services Act to allow the Administrator of General Services to provide states and localities access to certain items offered through [GSA's Federal Supply Schedule 84](#), Total Solutions for Law Enforcement, Security, Facility Management Systems, Fire, Rescue, Special Purpose Clothing, Marine Craft, and Emergency/Disaster Response. The products and services available to state and local governments include alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services.

State and Local Disaster Recovery Program, Section 833

Section 833 Disaster Recovery of the Defense Authorization Act for FY 07 amended 40 U.S. C. 502 to authorize GSA to provide State & Local governments to use the federal supply schedules for purchases of products and services to facilitate recovery from major disaster, terrorism, or nuclear, biological, chemical or radiological attack.

PROTECTING What Matters

Government Client Advantage: GSA

Securityhunter and GSA work cooperatively with Federal State and Local customers nationwide to strengthen our Nation's security. Homeland Security products and services are available through pre negotiated contracts to offer competitive "Best Value" solutions to support Homeland Security initiatives.

GSA schedules offer Federal State & Local customers direct delivery of the most advanced security solutions. Goods and services are offered at the most favorable pricing below MSRP. Ordering from Securityhunter enables government clients to meet **small business** goals. Securityhunter is a **woman owned** small business thus contracting services also promotes compliance for socioeconomic laws and regulations. We also have an Alaskan Tribal 8(a) teaming partner that may provide additional contracting support. This contracting vehicle offers non-contestable sole source awards which may expedite you required security countermeasure implementation.

Federal, State & Local GSA Approved Security Vendor

GSA Schedule 84 : Total Solutions for Law Enforcement & Security. Let Securityhunter' provide products and services for your Agencies' law enforcement, force protection, facility management and First-responder's electronic security requirements.

Securityhunter 's **CCTV** and **Access Control Cooperative Purchasing Solutions** are approved to assist with ongoing **Homeland Security and Disaster Preparedness & Recovery.**

Be Prepared & Improve Project Turnaround...

Secure a GSA Blanket Purchase Agreement (BPA): Leverage your buying power, and reduce administrative efforts /RFQs when you streamline ordering through GSA. Call us today 800-397-5300 to execute a BPA for your security solutions...
